

HiCAFS 25

MOBILE
HIGH PERFORMANCE
CAFS-SYSTEM

NEW

SUITABLE
FOR

Description:

Professional protection for ramified spaces: Our highly effective mobile CAFS-System with large volume effortlessly climbs stairs, thanks to the sophisticated rotation chassis with leverage effect. Equipped with ultra-light carbon pressure bottle (3 liter / 300 bar), 20 Meters of fire hose, pressure reducer and gauge.

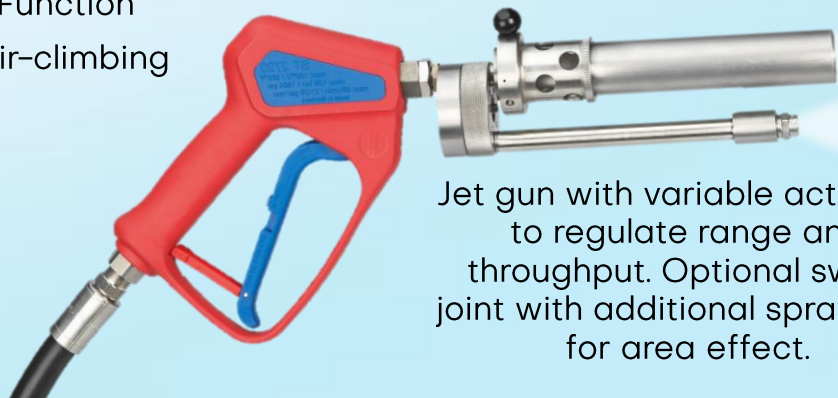

SPECS

HiCAFS 25

pressure vessel	stainless steel
propellant	compressed air / 3l, 300 bar
working pressure	29 bar
filling volume	25 liters
jet range	up to 20 meters
jet range (spray mode)	app. 10 meters
throughput	28.5 liters/min.
Fire rating	A, IV B
jet range	up to 20 meters
jet range (spray mode)	app. 10 meters
range of temperature	+5 to 50 °C
Weight empty / filled	36 / 61 kg
length / width / height	1140 / 600 / 690 mm
Hose length	20 meters

- highly-effective HNE CAFS-Function
- special chassis for easy stair-climbing
- Multifunctional jet gun
- 20 m fire hose
- extra high jet range
- easy to maintain and refill
- fast, efficient and versatile

Jet gun with variable actuation to regulate range and throughput. Optional swivel joint with additional spray tube for area effect.
